RE: Rack15 frequency comparison

Date : 15<sup>th</sup> January 2008

The following list of frequencies /channel numbers are compatible between the discontinued Rack15 receiver and the current Turbo range of transmitters. You can therefore use a Turbo transmitter (T1004/T1005 or T1006) with the old Rack 15RX receiver.

Rack15RX channel number	Turbo channel number	Frequency MHz
1	563	863.125
2	568	863.375
3	573	863.625
4	Not compatible	864.000
5	Not compatible	864.250
6	Not compatible	864.500
7	Not compatible	864.750
8	598	864.875
9	Not compatible	863.250
10	Not compatible	863.500
11	Not compatible	863.750
12	578	863.875
13	583	864.125
14	588	864.375
15	593	864.625
16 (same as 8)	598	864.875
