

Model : S1017

Sub Miniature Ear hook Microphone

The S1017 is a super lightweight ear hook microphone with a highly sensitive condenser capsule providing wide a frequency response. Its aesthetic hands-free design is ideal for anyone who uses a microphone while speaking or performing, such as a vocalist, actor, or teacher.

The microphone features a flexible stem which can be adjusted to fit the user perfectly.

This microphone will partner perfectly with any of the Smart Wireless backpack transmitters from the Solo, Mini or Turbo range.
